Katrina,

I was wondering if you could clarify status of the PRPs at Wilcox. When I was on site during sampling, I think mentioned that EPA didn't have any PRPs identified for the site. Which was confusing to me because you sent me a number of Special Notice Letters (SNL) to numerous companies (e.g. Sunoco and Marathon oil) inviting them to participate in the process.

I know that none of them plan to participate and the clean up is proceeding as a Fund lead site, but I just wanted to clarify that EPA still considers all the companies they sent SNL to as PRPs, and that there hasn't been a status change for any of them.

Thanks,
Suzanne
